Neoprene Contact Cement

Neoprene Contact Cement is a quick-drying solvent based adhesive that can be applied to all rubber and vinyl stair treads to concrete, pan filled, wood, metal, marble and terrazzo steps.

Easy brush-on application: simply apply to the back of the treads and the back of the nosings.

Available in ready-to-use 1 quart, 1 gallon and 4 gallon containers.

1 Gallon covers approximately 75 LF of stair treads.

Please note: this adhesive contains solvents that are extremely flammable.

Item No: STADHNCC
